## Information Technology

	End of YR Actual FY 2019/2020	Adopted FY 2020/2021	YTD Actual FY 2020/2021	End of YR Estimate FY 2020/2021	Proposed FY 2021/2022
--	-------------------------------------	-------------------------	-------------------------------	---------------------------------------	--------------------------

<b>Personnel Expenditures</b>					
Totals	-	-	-	-	-
Moved PIO out of IT to Fire and City Manager.					

<b>Operating Expenditures</b>					
Prof Services - IT Consulting	-	56,000	61,031	76,000	76,000
Budget for prof services was reduced since PIO took on IT duties. The PIO position is still performing IT duties but not as much as originally planned. The PIO has been used more for PIO than IT returning prof services to original planned amount.					
Communication Service	-	32,000	18,231	24,308	15,000
We have been able to reduce communications costs this year and plan another \$9k reduction by moving phones to SIP next budget year					
Wireless	-	26,420	28,851	38,468	4,056
All wireless communications are managed and purchased by departments and not centralized. This will move to their budgets in FY21					
Maintenance Agreemnts Comp	-	40,000	27,702	41,298	40,000
Number of computers and devices is not changing.					
Operating Supplies	-	3,000	34,388	35,000	5,000
This line item was used for capital purchases by various departments because previous budget did not include the capital plan. This line item will be for emergencies only and new comupters will be in departments and replacements will be in below.					
Web Page Expense	-	1,000	5,665	10,000	2,000
Over this year due to new website installation. Budgeted amount for future is acurate.					
E-Mail Expense	-	4,000	6,974	8,000	8,000
This encompasses all Microsoft 365 and other similar cloud software expenses. New user licenses and increased productivity licenses has warranted extra budget. Also Visio licenses for traffic accident diagraming was a new cost.					
Software Annual Maintenance	-	46,573	42,337	46,573	31,573
These are almost all lump sum payments, which is why it's already near the budgeted amount. By new policy, we are removing software maintenance for anything that is dedicated to only one department. Any software that is shared by multiple departments will remain. The 15k being removed is moving to HSPD.					
Other Licenses	-	-	776	1,000	2,000
These are odds and ends licensing, such as Zoom, Restream, or othe smaller licensing that comes up in the year.					
Computers & Printers	-	-	3,195	5,200	19,500
In years past, computers were scheduled for replacement based on a matrix of age and importance. For example, critical servers or workstations are replaced at 3-4 years and lower importance computers are 5-7 years. In FY20-21, this item was not included in the IT budget and is now being planned again. In FY20-21, these expendetures came out of Operating Supplies above.
