I. General

Milling existing pavement of approximately 7,982 LF of 20' wide roadways within the City of High Springs, finishing the milled surface, and placement of the new asphalt pavement in a single course of SP 12.5 at minimum 1 ½" compacted thickness. If after milling the asphalt, the road base is in bad shape an asphalt leveling course will be paved over the area, if ripping grading and repacking road is not reasonable. Density checks on installed lime rock 6" to 8" thickness. There will be no paving over concrete. Track coat will be applied to all surfaces per DOT Specifications. Manhole, valves, and storm water inlets will need to raise to the proper grade and all manholes, valves, and storm water inlet adjustments will be the responsibility of the contractor. To maintain level access to driveways, an apron shall be required at all driveway locations. Shall include striping the roadway back to the existing layout and shall include stop bars at all stop conditions. Yellow double stripes are not needed at all intersections, but recommended when tying into county or state roads, consult Florida Department of Transportation on what they would like the specifications to be. Any change requests will need to be presented and explained to Jason Kytle City of High Springs Public Works Director for clarification prior to work proceeding. Change requests will then be presented to Jeremy Marshall City Manager for discussion and approval.

II. Contract Time

The contract time shall be 90 calendar days from the date of contract execution. The contractor will be required to return the executed contract to Jason Kytle City of High Springs Public Works Director and Jeremy Marshall City Manager, within 14 days of council approval. Time can be extended by mutual agreements of both parties. Liquidated damages shall be based on FDOT specifications. No work is allowed on Fridays, Saturdays, Sundays, and/or City designated holidays.

Contractor shall provide a construction schedule with the bid package detailing time frames/lines showing how the project will be constructed. The schedule will be taken into consideration in the bid review process and bids submitted without the schedule could be the reason for a bid to not receive full consideration.

III. Construction Materials

All construction methods and materials shall conform to the requirements of the latest edition of the Florida Department of Transportation Design Standards and Florida Department of Transportation Standard Specifications for Road and Bridge Construction.

IV. Maintenance and Traffic

Contractor shall provide Maintenance of Traffic and it shall conform to the requirements of the latest edition of the Florida Department of Transportation Design Standards. All work to be conducted Monday through Thursday between the hours of 8:30 A.M. to 4:30 P.M. For safety, cost, and time reasons, if possible, detour traffic and use road closed signs, however if not feasible, flagging will be required and only one traffic lane may be closed.
